

Greyhound Adoption Program News

**Yes, it has been one year ago. How time flies.
A year ago I received an adoption application form
from the Croft family.**

**They had already got a female greyhound for a
pet from America. And they dearly loved her and
wanted to get her a friend.**

**They found our great site on the net. And after
spending a lot of time on the phone and via email I
put together all the arrangements for Patch, a white
and blue dog to fill this position.**

**They were so excited about Patch arriving, they rang me and were so thankful and said he was a
lovely natured dog and hit it off straight away with their other dog.**

**Unfortunately, the female passed away a few months down the track. And this left poor Patch
lonely, living without a friend.**

**So Sharon emailed me again and requested for me to find the right little girl to pair up with
Patch.**

I found a lovely black girl named Ebony.

**So I organised all the arrangements again. So out Ebony flew and they again were ecstatic with
the choice we made.**

The dogs have been best friends since.

And the Croft family always keeps in touch.

**These dogs are great as pets and very easy to adapt to different environments as long as they are
shown a bit of love and care.**

They will live anywhere.

Also on another note enclosed is a beautiful photo of Shelley the dog in Japan.

**They do love her dearly and as you can see in the photo she is more than happy with her new
family.**

**GAP is attending the Brisbane Pet and Animal Expo and I'm sure we will be flat out and have
some great photos for the next Journal.**
